## **InstantCriminalChecks.com Adds Popular PayPal Payment Option Bill Me Later®**

**We now provide financing options through PayPal's Bill Me Later program. This move makes it easier than ever to order employee background checks and court records from InstantCriminalChecks.com.**

InstantCriminalChecks.com customers may now be able to take the time they need in order to pay for their court records and [employment background checks using PayPal](#), as the company now participates in PayPal's Bill Me Later program.

Customers who make a purchase of more than \$99 with InstantCriminalChecks.com may have the option to pay their balance over the course of 6 months, with no interest, using PayPal's Bill Me Later service. Customers who have a balance of less than \$99 would be able to take 25 days to pay their bill.

When a customer is finalizing their purchase with InstantCriminalChecks.com through PayPal, they simply have to click the "Bill Me Later" button. The first time the customer selects this option, they will be prompted to enter their information and will get a decision from the secure payment processing site in a matter of seconds. After being approved once, the customer will not need to enter their information when they make purchases later.

Corporate leaders at InstantCriminalChecks.com feel that this provides customers with more opportunity to invest in employee background checks and [pre-employment background checks](#). Many customers rely on these services in order to make sound decisions in their professional and personal lives, but cannot always immediately afford the entire package. The Bill Me Later program allows consumers to make the purchases they need while still having the flexibility to fit the payments into their budgets.

InstantCriminalChecks.com is a top provider of instant and accurate court records and employee background checks. Customers can choose local, state or national search options, and will instantly receive a criminal record that compiles information from the best databases in the country. The company has long partnered with PayPal in order to provide its clients with safe, secure and convenient payment options, and with the addition of Bill Me Later, customers will find [background screening](#) to be more affordable than ever before.
